

My name is Stephanie Lai, I was born on Christmas Island and spent my formative childhood years on this beautiful Island. My family moved to Perth when I was 12 where I finished my high school and university education. I started work with Phosphate Resources Limited in 2010 and had been working on and off Island until I relocated back to the Island permanently in 2022. Since returning I have had the opportunity to contribute to the community by being a committee member of the IOT Regional Development Organisation and CI Stories Association.

The history of Christmas Island has proven that when the community works together, it can achieve great things. If elected as Councillor, I will be committed to listening, learning and collaborating with the community to ensure a prosperous, inclusive, and sustainable future for our beautiful Island.

Remember, your vote matters. Thank you for considering me as your candidate for Councillor. Together, we can make a difference!
