

THOMSON, Gordon

My occupation is General Secretary of the UCIW.

As Councillor I have advocated the broader community interests in services for Islanders and social and economic development of Christmas Island for the benefit of our community. The collective efforts of our Councillors and Community Consultative Committee have been directed to achieving the following,

Fisheries Management Ordinance, CI Marine Park, CI Strategic Assessment, Local Planning Strategy, Land and Economic Futures Charter, CI-Singapore Strategy, Aged Care Services, Settlement Sustainability Hub.

Housing our people – Structure Plans for Phosphate Hill and Silver City, Land release for new housing and new industries, Collaborative decarbonisation strategy focussed on solar and wind energy.

Socially responsible development requires dedicated people experienced in advocacy for the well-being and progress of the whole community. I seek re-election to build on the past successes and to work for the future Islanders deserve.
