

My name is Kelvin Kok Bin Lee.

Presently I am a Councillor of the Shire of Christmas Island.

I first became a Councillor in 1996 when the Local Government Act 1995 (WA)(CI) came into force on CI. I was elected as the Deputy President in the 1996 Council election.

I am one of the Unity Team of Councillors since then to be able to make a lot of different improvements of the lives of all people living on Christmas Island.

I do foresee the future of Christmas Island will be very bright with good potential due to the geopolitical atmosphere generated in the world's stage and Christmas Island will be a frontier for Australia with various reasons which a 21st century Asian renaissance is taking place just above the equator from Indian Ocean which divide Christmas Island with the rest of the other places.

A vote for me is always a 'Voice' for all of us living on Christmas Island.
