

My name is Lisa Preston and I have been a resident of Christmas Island for 26 years.

In that time I have worked in a number of small businesses and relished the opportunity to run my own successful business in tourism.

I have also worked on a number of community projects, including securing funding for the much needed playground for the Police Padang.

I can see that the island needs new thinking and a refresh of the way we do things if we are to take the island forward on a firm foundation - keeping our community thriving whilst enjoying the journey to our future.

I had been Chairperson of Christmas Island Tourism for 12 years, and have participated on several committees over the years – all with the purpose of trying to improve outcomes for the community, our standard of living and for our developing tourism industry.

I would appreciate the opportunity to represent the community.
