

Azmi Yon

I am a Christmas Islander. I was born and raised here. I work with Christmas Island National Parks as a Senior Ranger. I have been a Councillor for 16 years and in this time I have overseen the Shire organization that has consistently met financial, social and strategic goals providing for the CI community.

A community problem that I am concerned with is the right-to-buy public housing for long term public housing tenants. It is an ongoing issue that I am pursuing for the community.

For the past 25 years I have been the President of the Malay Association, which operates the Malay Club and functions to encourage Malay culture and contribute to multi-cultural Australia.

We embrace all cultures that embrace our own.

I hope to provide stewardship in supporting the economic goals developed by Council as the Island must also prepare for our future by diversification of our economy for the next generations.

I will work to serve the best interests of our community.
