

Morgan Soh

My name is Morgan Soh, and I have been a Councillor since 2019. I have participated in many council decisions that have benefited the community in that time including tourism/community development initiatives like the CI Marathon and Territory Week which have become large tourism weeks on Christmas Island.

I believe that the Island will need to attract tourism and new investments in new areas to ensure our future. Land Planning for the new economy is of great importance to us all.

Future generations in the next 30 years must have access to the same economic prosperity in our last 30 years. To do this we need close working relations with the Commonwealth, industry and local residents.

A vote for me will be a vote for a person that looks to make the Island a viable place to live for future generations so they can make a home here for as long as they want.

Our Island is our Responsibility.
