

Strategic Community Plan 2023-2033 Facilitator Questions

1. What specific social, cultural or community issues should our local government prioritize in the upcoming strategic community planning process?
2. How can the local government ensure equitable access to community facilities, services, and programs for all residents, regardless of their socio-economic status or cultural background?
3. In what ways can the local government support the development of local businesses and industries to promote economic growth and job creation within the community?
4. The Shire of CI supports a range of local festivals at the present. What additional cultural events or festivals would you like to see included in the community calendar, and how can the local government support their organization and promotion?
5. The Shire presently has a monthly meeting of representatives from different community groups, such as the CLA, MACI, CIWA, Catholic Church, Islamic Council and CINC. How can the local government further collaborate with community groups and organizations to enhance social cohesion and encourage community involvement in decision-making processes?
6. What infrastructure improvements are needed to support community development, such as upgrades to parks and public spaces, community centers, and transport links?
7. The Shire is involved in beach clean ups, creating green corridors and greening the township. What other things might you suggest local government commit to for enhancing environmental sustainability and climate change issues within the community?
8. The local government currently provides an annual grant program for local art groups and other non-profits in the 'Community Assistance Grant Program.' How else might the local government promote and support the development of local arts and culture initiatives?
